This report charts your progress toward checking for each ancestor's military service records.

To be included in Eligible, the young man must be the desired service age at any time during the conflict.

None of the military service reports will catch the following:
1. Young men who lied about their age in order to serve
2. Older men who lied about their age in order to get out of serving.

GenDetective provides a way to identify the young men for whom you have searched for military service, but that they did not serve, allowing these people to be removed from the pool of eligible men.

Push arrow to the left of the report name to run this report!
